

OUTWELL PROVIDES FULL FACILITIES FOR YOUR OWN ON PITCH BATHROOM

Time to expand your horizons. With camping's popularity filling full-facility campsites this is the ideal opportunity to explore some of the less well-known areas from simpler sites. And, while you may well benefit financially, the lower fees offered often reflect the lack of wash block with toilet. But, all is not lost. Outwell has everything you need to bring your own bathroom to your pitch.

New for this year are the Seahaven Comfort Station toilet tents in single and double sizes. The Double (pictured left and below right) provides two rooms. Each has external access and an internal Quick & Quiet connecting door. Use one room for

an Outwell Portable Toilet and for changing before you enter the shower room. All Seahavens feature a hammock from which to suspend an Outwell Solar Shower under a vinyl window where it will be heated by the sun. Other features include protected roof vents, handy hanging rail, storage pockets and a sewn-in groundsheet with mesh panels to allow the shower's waste water to drain away.

Unlike many toilet tents that rely on fibreglass poles, Seahaven Comfort Stations use the time proven Outwell Power Stability System of rigid steel poles that allow increased headroom and internal space. Their inherent strength offers superb stability, enhanced by the unique Outwell Wind Stabilizer System that ensures your toilet facility will shed any wind.

Outwell offers three sizes of portable chemical toilet. The small six-litre model (pictured left) provides 'bucket and chuck it' simplicity that's perfect for overnight convenience. The 10- (pictured right) and 20-litre models bring flush sophistication and easy to empty holding tanks with leak-proof seals that make them ideal for longer stays and touring holidays.

Storage and transportation of the 10- and 20-litre models are made more pleasant by the introduction of the Outwell Portable Toilet Carrybag (pictured left). The water-resistant bag is expandable to fit and easy to clean.

The 20-litre Solar Shower (pictured right) provides ample hot water for free using the sun's rays to heat up the black bag. An integral thermometer allows you to monitor water temperature. These showers are also ideal for outdoor pursuits and washing off your dog after a walk along the beach.
